- Assisted customers with questions, concerns, and purchases, and provided knowledgeable and helpful advice and recommendations
- Processed transactions and handled cash and credit card payments accurately and efficiently

PROJECTS

MASS Clinic: Patient Quality Dashboard | *ReactJS, ExpressJS, Microsoft Azure*

- Developed a web app dashboard that displays the health clinic's patient statistics using the ChartJS library
- Implemented the web app navigation tools, the individual graph web pages, and each graph drill down option
- Collaborated within a 4-person development team, the MASS Clinic client and a project mentor to complete the software development process

Employee Manager App | *AngularJS, Java Spring Boot, mySQL*

- Built a web app that displays employee details on cards
- Created CRUD operations for the web app to create, view, update and delete employees or their details

YouTube Channel Analysis | *Python and Jupyter Lab*

- Created data analysis using YouTube API to access real world data
